

## HONORS WORLD HISTORY

**2022 Summer Assignment:** Order (try Amazon) a hard copy or online version of Without Warning: Ellen's Story, 1914-1918 and read it in its entirety. This novel depicts fictionalized characters located in England and France during The Great War. There will be a test on its contents (story, characters, conflicts, vocabulary) during the first/second week of classes in August.

As you may already know, Kindle versions have tools to assist you as you read through the text: *Word Wise*, which helps you read harder books by explaining the most challenging words in the book, and *Page Flip*, which helps you explore your book without losing your place. There are additional helpful instruments as well. If you decide to go with a printed version, please have a dictionary handy when reading to help you define difficult terms, especially ones that were common to the British vernacular during the late 19th/early 20th centuries.

Please let me know if you have questions ([geoffrion@cardinalnewman.org](mailto:geoffrion@cardinalnewman.org)).

Enjoy your summers!

Mr. Geoffrion
